

Top YouTube Channel for Programming Language

Here is the top national and and international YouTube channel for learning programming language like C, C++, C#, Java, Python, etc. I have selected both Hindi learning and English learning channels available on YouTube.

YouTube

It has never been easier to learn how to program, but with high quality content all over the internet everyone is learning without any problem. One of the best platform for learning online is YouTube - it offers a huge number of channels aimed at those who really wants to learn about coding. So here is the list of these channels.

Programming Language

Java

C#

C++

C

For Learning C, C++ & Java (National YouTube Channels - Hindi)

1. MySirG

This is one of the most best channel on YouTube to learn C and C++ language in your mother tongue(Hindi). Videos on his channel has crossed 1 Million views. I always preferred this channel to learn C language for beginners.

- His YouTube Channel: <http://bit.ly/MySirG-Youtube>
- C language Playlist: <http://bit.ly/C-Language-Playlist-MySirG>
- C++ language Playlist: <http://bit.ly/CPlusPlus-Playlist-MySirG>
- Java language Playlist: <http://bit.ly/Java-Playlist-MySirG>

2. Easytuts4you

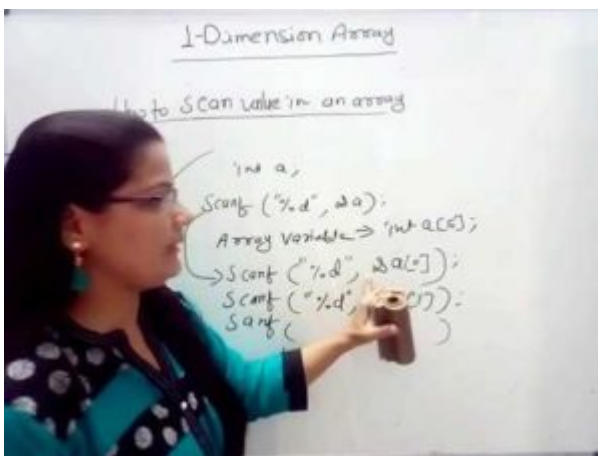

Hindi language channel has more 3.5 Lakh subscriber on YouTube. This channel teaches C, C, Java & JavaScript in simple language with practical. His teaching skills is so simple and influential.

- YouTube Channel: <http://bit.ly/Youtube-Easytuts4you>
